

KZ Guidelines

One of our primary goals at **KZ** is insuring the safety and security of your kids while they are in our care. Because we want to do our best to care for them, we ask for your cooperation in following these guidelines.

- ▲ All children, infant through 5th grade, must be registered and picked up by a parent or adult guardian.
- Please make a note of your number **KZ** family number. If a parent or guardian is needed during the service, the family number will flash on the monitor in the front of the sanctuary.
- ▲ Families with children in the Nursery or Preschool will receive a name tag that matches their child's. Please present this tag to the teacher or helper when picking up your child.
- Please notify our staff of any allergies or special needs that your child may have. It is especially important that we are aware of food allergies, as we do serve food at times.
- ▲ We ask that children be picked up **immediately** following the service or class and that the teacher or helpers are made aware that the child is leaving.
